Female human x male gryphon

'Feral' gryphon

Cuckolding, voyeurism, exhibitionism,
breeding

Snippet? ↓

I knew I wasn't good enough
for my wife. Not with my
tiny cock, a weak tool
in comparison with what the
gryphons had to offer. Since
the first day we'd met and
I watched her hungry gaze
roam from arse to arse, then
gleek headquarters and ^{that} cocky
tilt to their heads. Every
inch of them radiated power,
confidence blurring into brutality.

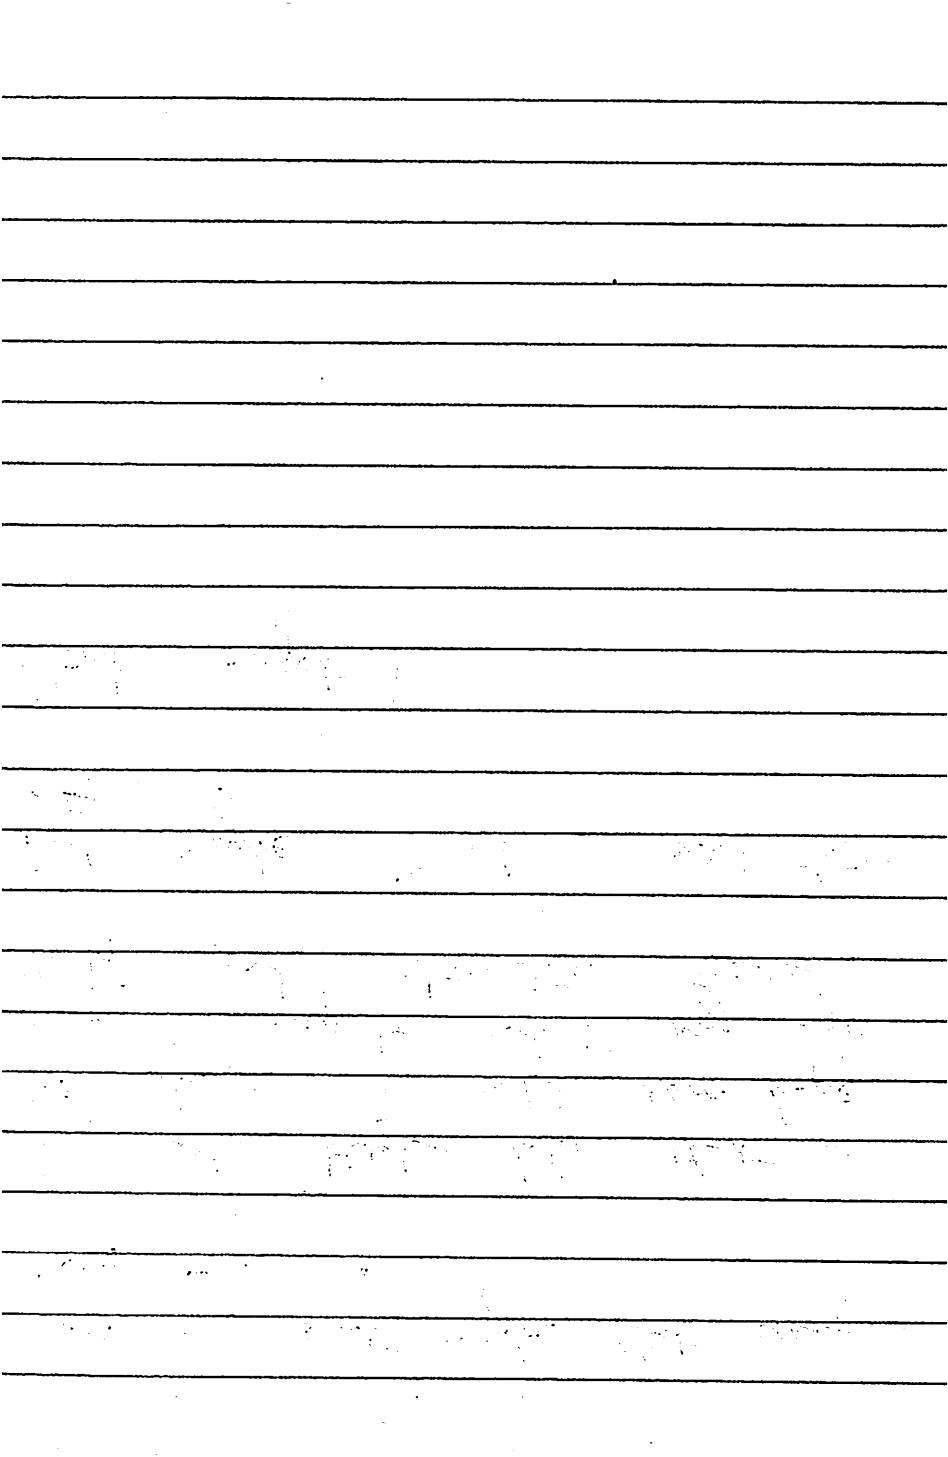

arrogance. But maybe that was
silly too.

No, with beasts like that in
the city, I could never hope
to match up to what my wife
loved and absolutely needed.

But maybe I didn't mind that
either.

Idea:

First person. A man's wife loves the allure of the feral gryphons, who are on the same level as humans, intelligence-wise. They can speak and are an active part of society.

Although she loves her husband deeply, it is a female led relationship and they take great pleasure in cuckolding. He watches his wife mate with the creatures behind a 2-way mirror in their bedroom, hoping their seed will take so they may have a 'gryphet' of their own to raise.
