

Skilled Addiction

Mark leaves Mador, his boyfriend, to go enjoy himself, saying he's going to get a drink. He goes to the gloryhole stall, locking himself on and stripping down.

There he is faced with a zebra cock to suck and he makes the blind man, pushing into the back of his throat. Next is a fox that catches the side of his muzzle with her head. Another cock comes through the hole behind him and he lets the four thrust between his ramp cheeks, faching to push in but spilling a load on his ramp/back nonetheless.

Mark tries to take a break but is faced with more demanding furs. One works out how to open the stall

and the tiger forces him (willingly) up to the wall, clamping his tail. Once he's done, another pair - a German Retriever dog - takes a turn, also and tying with the wolf. He boggles, the dog bores him, says dirty and pumps his cock to the wolf ^{over} against the wall, shuddering through an explosive roar.

The dog departs and Mark dumps the floor, recovering. As he's getting up again, considering calling it night, the ~~open~~ ~~unlocked~~ ~~stable~~ ~~door~~ ~~opens~~, revealing a horse and a bound/hogtied dragon. He hears raps on the stable door and there's a muffled groan of protest.

"Wow... I wonder who that could be?"
